Basic Interior

Basic Interior Bond includes a broad assortment of ACM panels. The white surface combined with our print technologies makes it possible to create interesting graphic solutions for wall mounting and as projecting and suspended signs.

Create a brushed steel look with Basic Interior Steel and combine it with print directly on the panel.

Basic Interior Safety Signs includes a number of safety, fire, escape route and warning signs in Modulex quality.

The symbols are complying with the ISO 7010:2011 regulations.

Basic Interior Paperflex is an easy exchangeable solution with the option of a permanent header panel.

Features

- Slim, flat, elegant design
- Option for raised text and logos
- Available with paperflex: Print on paper and place behind a transparent front
