

Macer Exterior

Macer is the Latin word for lean. Macer is an exterior single post sign system which is suitable for directory and directional signs and in larger sizes for ID signs and landmarks. Wall signs are also available in the assortment. Internal illumination is possible even at low panel thickness. The internal illumination is based on LED technology with long lifetime and low power consumption.

Features

- Withstands harsh weather and physically challenging environments
- Panels heat painted in your desired colour
- Internal illumination possible with a panel thickness of only 54 mm
