

Via Interior

Via Interior is an obvious choice when your signage or wayfinding solution requires modular suspended or wall-mounted signs. The signs can easily be joined vertically and horizontally and you will get exactly the construction that fits your amount of information. Via Interior is a complete series of signs with orientation signs, directional signs and identification signs. The design expression remains the same no matter if the signs are delivered with or without internal LED light.

Features

- Slim, flat, elegant design
- Option for raised text and logos
- Easy to install, update and clean
- Available with internal LED light
